

Over 80% of Hamilton Ratepayers surveyed by the Hamilton City Council

SUPPORT COMMUTER TRAINS

- Hamilton to Downtown Auckland
- 3 services to and from Auckland on weekdays
- Monthly pass would be available
- Train can travel at 110km/ph
- Business Case Studies show it will be popular with business commuters and the general public
- Possible to re-open Hamilton Central underground station (offer Central Hamilton to Britomart services)
- Onboard catering and toilet facilities
- Power points and internet connections at seats possible
- Express services stopping at Huntly, Te Kauwhata, Pukekohe, Papakura, Papatoetoe, Newmarket and Auckland CBD (Britomart) proposed
- Easy linking to Auckland Airport direct shuttle buses and Middlemore Hospital
- No traffic jams, no parking hassles, guaranteed timetable - no guesswork about when you will arrive at you destination!
- Proven to provide more benefits, immediately, than the \$2 billion Waikato Expressway
- Hamilton City ratepayers pay over \$420 per year to fund roading. A rate of just \$10 to \$12 p.a. required for commuter trains. Council could reduce roading spend by the same amount (= no rate increase possible).

Sign our petition for the government to have trains running ASAP. (Petition forms can be down loaded from our website.)

Join or support the **Campaign For Better Transport** to help us get the much sought-after commuter rail services for the Waikato region. See our website to join, or contact us by phone or email.
